The following information is required for production permits, transport permits for non-exempt wells, and permit amendments:

- ☐ A detailed statement to include:
  - The nature, and purpose of the various proposed uses;
  - The amount of water to be used for each purpose; and
  - For production permit application:
    - A breakdown by types of use (domestic, commercial, irrigation, industrial, etc.); and
    - Conservation practices in effect or proposed.
- ☐ A declaration that the applicant will comply with the District Rules and all groundwater use permits and plans promulgated pursuant to District Rules.
- ☐ Applications for Historic Use Permit for volumes greater than 6 AF/acre shall include the information required under Rule 11.A.1.a or 11.A.1.b, as applicable. Applications for Operating Permit for volumes greater than 6 AF/acre shall include the information required under Rule 11.A.2.
- ☐ The location of each proposed or existing well and a plat or map showing location of the property and location on property of well for which application is submitted.
- ☐ A water well closure plan or a declaration that the applicant will comply with well plugging and capping guidelines set forth in the District Rules and will report well closures.
- ☐ Notice information requirements (required for all new non-exempt wells which the District requires an opportunity for a hearing (See Rule 13.D):
  - A location map including the location of:
    - The proposed well or the existing well to be modified;
    - All existing wells within a half (1/2) mile radius of the proposed well or the existing well to be modified;
    - The subject property; and
    - The property of all the landowners located within the half (1/2) mile radius if such landowners are not served by a retail public water utility.
  - The names, mailing addresses, and physical addresses of the property owners with property located within the half (1/2) mile radius; and
  - Mailing address of retail water provider if applicable (notification of any property owner served by a retail public water utility is not required of any applicant if notice is provided to the retail public water utility).
- ☐ For new wells or well modifications, a proposed well design schematic with specifications to include: the total depth, borehole diameter, casing diameter and depth, annular seal interval(s), annular sealing method, surface completion specifications, and any other pertinent well construction information.
- ☐ A Hydrogeological Investigation and Report (See Rule 7 and Appendix A of the Rules for report requirements), if the Board of General Manager deem it necessary or if otherwise required under District Rules.
- ☐ The proposed well must meet the spacing requirements under Rule 14.
- ☐ A Water Conservation Plan (WCP) or a declaration of compliance with District Management Plan and a Drought Contingency Plan (DCP), if required by the Board (See Rule 7 for Requirements).

## PRODUCTION PERMIT, TRANSPORT PERMIT, AND PERMIT AMENDMENT APPLICATION FORM (Continued)

- ☐ If the groundwater is proposed to be resold, leased, or otherwise transferred to others, provide the following:
  - The location to which the groundwater will be delivered;
  - The purpose for which the groundwater will be used; and
  - A statement of the projected effect of the proposed withdrawal on the aquifer or aquifer conditions, depletions, subsidence, or effects on existing permit holders or other groundwater users in the District.
- ☐ Payment of applicable fees (see District's Current Fee Resolution).

In addition to the above information, the following information is required for transport permit applications.

- ☐ Information describing the availability of water in the proposed receiving area during the period for which the water transport is requested.
- ☐ Information describing the projected effect of the proposed transporting of water on aquifer conditions, including subsidence or effects on existing permit holders or other groundwater users within the District.
- ☐ A description of how the proposed transport is addressed in any approved regional water plan(s) and the certified District Management Plan.
- ☐ A technical description of the facilities to be used for transportation of water and a time schedule for any construction thereof.
- ☐ A detailed statement of the nature and purpose of the various proposed uses in the proposed receiving area, the amount of groundwater to be used for each purpose, and the requested annual volume to be transported outside the District.

I, the undersigned applicant, hereby agree and certify that:

- a. for a new well, this well will be drilled within 30 feet of the location specified and not elsewhere;
- b. I will furnish the District with a copy of the completed driller's log, any electric log, the well completion report and any water quality test report within 60 days of completion of this well and prior to production of water there from (other than such production as may be necessary to the drilling and testing of such well);
- c. in using this well, I will avoid waste, achieve water conservation, protect groundwater quality and the water produced from this well will be for a beneficial use;
- d. I will comply with all District and State well plugging and capping guidelines in effect at the time of well closure;
- e. I agree to abide by the terms of the District Rules, the District Management Plan and orders of the District Board of Directors currently in effect and as they may be modified, changed and amended from time to time; and
- f. I hereby certify that the information contained herein is true and correct to the best of my knowledge and belief.
